

International Journal of Geoinformatics

Special Issue

Global Navigation and Satellite System (GNSS)

To be published in March 2011

Call for Papers and Articles

International Journal of Geoinformatics will publish a special issue on Global Navigation Satellite System (GNSS) in March 2011. All the experts, academicians, and researchers working in the field of Global Positioning System (GPS), GLONASS, Galileo, QZSS, Beidou, IRNSS and their applications are invited to submit the paper and articles for publication. All the submissions will be reviewed by a panel of Editors and published if accepted.

GNSS activities have gained impetus in past five years due to the phenomenon success of NAVSTAR GPS. Now, GPS has become part of daily lives and has even become necessary in mobile phones and vehicles. To keep positioning and location based services go on with higher accuracy and reliability several new systems are being launched and tremendous research work is going on in many renowned centers and institutions. This special issue aims at compiling some of these output for the benefit of all researchers as a reference material.

All the papers should be prepared based on “Author Information” of International Journal of Geoinformatics. Please visit the website for more information <http://www.j-geoinfo.net>

Please submit your paper to nitingis@gmail.com by **December 15, 2010**.

Please feel free to contact for any clarification and become part of this special issue.
